

Wind Solutions

June 2016

Wind Solutions

Solar-Tec is your expert partner for small to medium scale wind projects ranging in size from a minimum of 10 kW up to 5 MW utilizing wind turbines from 10 kW up to 750 kW.

Our focus is commercial, government, industrial, institutional and non-profit customers with wind systems connected “behind the meter”.

Solar-Tec also offers medium and high voltage grid-tied wind systems for community and utility scale customers.

Ground Solutions

- Ground mounted horizontal axis wind turbines (HAWT)
- Ground mounted vertical axis wind turbines (VAWT)

Roof Solutions

- Roof mounted horizontal axis wind turbines (HAWT)
- Roof mounted vertical axis wind turbines (VAWT)
